

Hints and features:

- The Alliance 363 is an IF row crop tyre for heavy, self-propelled field sprayers and tractors
- It offers up to 20% higher load capacity at the same inflation pressure or the same load capacity at 20% lower inflation pressure compared with a standard tyre
- The directional tread pattern design, divided in separate blocks, enables good grip on soft surfaces
- The increased number of lugs and block distribution on the tread pattern ensure good ride comfort and low rolling resistance on roads
- Its large contact area provides high traction, reduced fuel consumption and low soil compaction
- The steel belted casing enables uniform ground pressure distribution and protection against damages, thus ensuring a long service life
