

## Hints and features:

- The Sailun SAW1 is a truck winter tyre for steering axles but is also suitable for trailers
- The wide tread pattern and the tread pattern with 5 main grooves enable very good and safe handling on snow and ice
- Jagged sipes increase the contact area with the road and enhance the grip
- The sipe design and the shoulder grooves open on the sides reliably deflect water and snow
- The special rubber compound keeps its positive characteristics even at low temperatures
